IBM Cloud Command Line Interface - InstallShield Wizard

Preparing to Install...

IBM Cloud Command Line Interface Setup is preparing the InstallShield Wizard, which will guide you through the program setup process. Please wait.

Extracting: IBM_Cloud_CLI.msi

IBM Cloud Command Line Interface - InstallShield Wizard ✕

The installation completed successfully

To get started, open a terminal window and enter "ibmcloud help". Refer to http://ibm.biz/cli-auto-completion if you want to enable auto-completion for zsh or bash.

IBM Cloud Command Line Interface has a plug-in framework to extend its capability. To install recommended plug-ins and dependencies, run the install script from http://ibm.biz/install-idt. For additional plug-in details, see http://ibm.biz/install-cli-plugin.

Starting from version 1.0.0, IBM Cloud CLI no longer bundles the Cloud Foundry CLI by default. To run Cloud Foundry commands via the IBM Cloud CLI, you need to install the Cloud Foundry CLI through "ibmcloud cf install" command.
